

Living Our Principles

THRIVE TOGETHER

October 2024

Emily Portney, *Global Head of Asset Servicing*: Thrive Together is how we show up as one and basically take what makes us all special individually, but makes it even more special collectively.

Morgan Bass Roper, *Belonging and Inclusion Director*: Thriving together requires that we have a shared vision and that the best way to have a shared vision and to achieve that is if we're looking toward that together and we're building it together.

I think that trying to create an environment that folks feel comfortable knowing that I'm allowed to be who I am. It's valued that I am who I am here allows us to be ourselves, and if we're ourselves, we can do our best work.
